## How it works:

Soko la Dawa is a freely accessible online system to patients and the public looking for various drugs and/or healthcare products. Here, they can search for drugs, submit prescriptions and make enquiries.

### **Alongside the displayed drugs in the search results is a list of Pharmacies that provide them.**

Prescription owners can place direct enquiries to listed pharmacies to receive best price offers. At the backend, pharmacies receive notifications and alerts of the submitted enquiries and prescriptions.

A pharmacy can reach the enquirers directly via text message and/or email using messaging facilities on the system with their best offers and other incentives such as delivery to door, free samples, etc. They may also call the prescription owner.

## Beneficiaries:

1. Pharmacies
2. Doctors / Clinics & Laboratories
3. Patients & General Public
4. Employers and Healthcare & Management Organizations

## Product Account & Profile Page

### Requirements:

We shall require the following to setup your Clinic OP + Soko la Dawa Admin account:

1. A photo of your business (establishment shot)
2. Your business address and physical location
3. Soft Copy Business Logo and/or Letterhead.
4. A summary description of your business and extra services you offer such delivery to door services, blood testing services, etc. (500 to 800 characters including spaces)
5. The locations in/around your county you would like to receive enquiries and prescription from.
